

power-fish

100% ORGANIC FISH FERTILISER

Earthcare Power-Fish is a 100% organic fish fertiliser that is suitable for all soils, pastures, crops, ornamentals and vegetables. Earthcare Power-Fish is manufactured from Australian wild caught tuna, we do not use fresh water or aquaculture fish. The unique manufacturing process of Earthcare Power-Fish ensures the maximum amount of natural nutrients, vitamins, proteins and amino acids are extracted from the fish. This means you are provided with a superior fish fertiliser product. Earthcare Power-Fish is a fish concentrate and not an emulsion which means this product is 100% soluble and can be applied to either the soil or the foliage.

Benefits of Power-Fish

- Promotes shoot growth and increases a plant's root mass.
- Improves flowering and fruit development and boosts colour in flowers, fruit, vegetables and foliage.
- Increases cation exchange capacity, improving a plants ability to uptake nutrients and trace elements from the soil..
- Nutrients are completely soluble and plant available.
- Stimulates beneficial microbial activity in all soils, which in turn encourages worm activity.
- Revitalisers the soil by providing it with a range of natural nutrients, vitamins, proteins and amino acids.

Directions for use:

Earthcare Power-Fish is 100% soluble and can be applied either to the soil or the foliage. The product should never be applied undiluted and once diluted should be used within 24 hours. This product is suitable for application by boom spray or fertigation equipment. Best practice requires that application be avoided under extreme weather conditions.

Typical Analysis (W/V):

Nitrogen (N)	3.1%
Phosphorus (P)	0.34%
Potassium (K)	0.34%
Sulphur (S)	0.34%
Calcium (Ca)	0.18%
Magnesium (Mg)	0.05%
Sodium (Na)	0.25%
Iron (Fe)	184 ppm
Manganese (Mn)	2 ppm
Zinc (Zn)	43.9 ppm
Copper (Cu)	2.6 ppm
Cobalt (Co)	0.27 ppm
Boron (B)	37.5 ppm
Molybdenum (Mo)	0.08 ppm
pH	3.6
Solids	24%

Application Rates :

General Horticulture	1 : 300 Solution	Apply at 3-4 week intervals during active growth
Fruits, Nuts & Olives	1 : 200 Solution	Apply at 3-4 week intervals during active growth
Pasture	1 : 250 Solution	Apply at 3-4 week intervals during active growth
